The long awaited web page for Pensioners is now working as of May 12, 2011 and can be accessed at (WWW.CP-PENSIONERS.COM)

She also spoke about sending CP Pension Department your Power of Attorney for their records. There seemed to be a misunderstanding that when they received the power of attorney form they would not speak to you anymore. 12:00 PM break for lunch

01:00PM President Lyle Berge opened and asked Mary Faye Green from the London Chapter to introduce Mr. Neil Foot, Guest speaker.

Mr. Neil foot spoke about meeting Mary Faye Green 35 years ago and is a long time friend.

He grew up in London Ontario and while he was working in a grocery store his father bought him a pair of gloves at that store and told him to put them under the counter because as of the next day he was going to work for the CPR on the section and so his

RR career began. He got to know some employees in the dispatcher tower and eventually started to work the odd shift in the winter after writing his "C" book. Spoke about meeting many people along the way of his career. Jim Sayer taught him proper Office work. Mr. Russell Allison made him an Assistant Superintendent out West. The higher you get promoted it is better to see the job in the field. Lots of changes in the RR. Mr. Allison was with him when the hole was blasted in the new Tunnel on the Mountain sub. Then he was sent to Montreal to be a Vice-President.

He has been retired for 4 years and the biggest thing he misses is the people not the company. Tried Consulting while he was retired but gave that up as away from family too much as he was retired and wanted to enjoy it.

His family he has 2 sons and daughter in laws and 4 grand children and is really enjoying the time he spends with them One grandson is autistic and it is very interesting watching him grow up. One grand son is 5 yrs old and is a real boy going all the time.

He and his wife live in a rural community near London and they are very active in the community life. They have joined many organizations there In June he will become a Director of the George Bay Hospital. All volunteer jobs.

Spoke about getting the message out to join pension groups and getting the message out for Pensioners to get involved in volunteer work, advertise in Momentum and through the Web page of Pensioners and in local newspapers to try and get more retirees involved in many areas to keep busy and informed. It's different now as no one knows every one at work or when retired.

Spoke about the CP Pension report as it is hard to understand so he explained in easy terms what he feels what it means.

If you worked for 35 years and each year contributed \$2,000.00 you would have approximately \$70,000.00 in the Pension Fund from yourself. If your Pension cheque is for \$3000.00 per month the in 2 years you would receive \$72,000.00 which is \$2000.00 over what you contributed. The extra money you are receiving over your contributions is from what the CPR pay and the investments of the Pension Fund The Pension Committee is controlling that very well.

He spoke about his 2 sons working for CPR one is a Locomotive Engineer and the other is in management so he hears news from both sides.

Spoke about the health care of pensioners as he has Health Spending Account and he had to buy more benefits for his family. Companies have shifted more responsibility To the individuals for their own health care.

He thanked the Committee for inviting him and wished all the very best for many years to come.

President Lyle Berge thanked Mr. Foot for his presentation

President Lyle Berge spoke about trying to get more pensioners involved in chapters as Calgary is doing the best they can to get more involved as all local should try something. Numerous delegates spoke about what they are trying locally.

President Lyle Berge introduced Mr. Jean Pierre Carboneau from Blue Cross

Mr. Carboneau spoke about the costs of the Blue Cross plans to the Company and the retirees. He also mentioned the cost reduction when you buy Generic Drugs from your Pharmacists wherever possible as it saves you money and also the plan money. He gave an example of Lipitor from \$ 2.28 for 20 milligrams to \$ 0.32 quite a savings. In 2012 there are 7 more drugs that will come out as generic drugs as and cheaper than the brand name drug.

He spoke about the cards for Blue Cross and as there is 3 cards, 1 Direct pay Card, 2 Direct Drug Card everything is on line and no paper. 3 Deferred Drug Card is you pickup drugs use this card and pay Blue Cross the difference later. CP wants to see the numbers to review it. Blue Cross is constantly trying to lower costs of the plan. He also advised everyone to try and get their refund cheques directly deposited into their accounts it speeds up payment and no long waits for payment as if a postal strike for example.

There are 4 provinces namely BC, Alberta, Ontario and Quebec who have passed legislation putting a limit of 25% on Generic drug costs from the manufacturer and advising what druggists can charge.

There are some drugs that do the same as more expensive drugs that can be used. And all Doctors should be asked about this for each individual.

If some drugs are more expensive or are not available in Generic them Blue Cross Doctors will review it and OK it for payment The more Blue Cross can get the Pharmacists to sell the cheaper Generic drugs which is cheaper for you and the plan If you still want the Brand name drug, Blue Cross will only pay the Generic price on some drugs, and the difference will be paid by you. If your doctor states that the brand name is the only answer then you deal with the Pharmacists and Blue Cross will review each separate case. In this day the technology is there for all Drug stores to know about the cheaper cost of all drugs, (generic)

Some questions were asked about the CN plan and Mr. Carboneau explained 2 different companies and CP says it costs too much to do it their way.

Questions about CP members getting cards for Drugs and CP said any cost to the Pension Plan will not happen.

Questions about Manitoba members not being paid promptly and Mr. Carboneau stated that some employees were let go as there were many problems there and it has gotten better because of the new employee.

Spoke about as of January 1, 2004 CP has started the Health Spending Account (HSA) for all employees retiring after that date and as time goes by Blue Cross will be gone and HSA will take over which is cheaper for CPR and limits each year for all retirees not a life time limit as Blue Cross.

One delegate asked about giving up the pass for part 2 of the Blue Cross and it was mentioned that CP will not do it.

Henry Thiessen spoke about the passes for Blue Cross part 2 and CP will not entertain anything to do with a pass as there is only less than 1000 passes and they will be eventually be gone.

Mr. Carboneau thanked every one for their time and wished them all well.

President Lyle Berge thanked Jean Pierre Carboneau for his report

President Lyle Berge continued, asking if there was any unfinished business and there were 2. One a chapter got a ruling from Vice President Mr. Shields and the other we are waiting for an explanation from another chapter from the 2009 convention. But no others.

He then asked if there was any new business and there was none.

President Lyle Berge stated that we would continue with the Resolutions. He stated that at the executive meeting Thursday evening while reviewing the resolutions there are some

Regarding the Bylaws and the others were to take to the CPR.

The Bylaw resolutions will be dealt with first and the others second.

We then went through the resolutions as follows.

Motion was accepted unanimously by the Delegates.

GENERAL (from the NCCPPA Executive)

With respect to dues sent to the NCCPPA, specifically the members over age 80. Current practice is that members of pensioner groups over age 80 are not counted when sending in the \$1.00 per person for NCCPPA. Since the proportion of members who are over 80 is increasing faster than new members can replace them, perhaps we can consider assessing everyone \$ 1.00.

The bylaws have two sections respecting this:

1. ARTICLE V, Section 4(a) refers specifically to the age 80, saying chapters who grant free memberships to members over the age of eighty (80) are entitled to count such member when determining their delegate entitlement and no Association dues are payable for such members.

Motion by Henry Thiessen and seconded by Bruce Dumaresq to amend this paragraph and delete after the word entitlement, “and no Association dues are payable for such members.” For Article V, Section 4(a)

Motion adopted unanimously by the Delegates.

2. ARTICLE VII. (Revenue), Section 1, states that the local Associations pay \$ 1.00 per member per year. There is nothing here that excludes members over 80.

If we were to delete the phrase “and no Association dues are payable for such members” in Article V, there would be no reference to age 80, and all Associations would send \$1.00 for all members.

The executive presents this resolution to the Delegates.

There was considerable discussion by the Delegates

Motion by Henry Thiessen and seconded by Jim Harris to amend this resolution changing the \$ 1.00 to \$ 2.00 effective January 1, 2012 and accepting the rest of it.

Motion was accepted by the Delegates by a vote of 7 to 3

All resolutions were dealt with and President Lyle Berge continued.

WELFARE OF THE ASSOCIATION

There was a discussion about the Bylaws and specifically Article 5 Section 4(b) regarding the last sentence.

Motion by George Hucker and seconded by Don Jennings to delete the last sentence of Article 5 Section 4 (b) and remove it from the Bylaws.

Motion Adopted unanimously

Under Roberts Rules of Order a Motion by George Hucker and seconded by Henry Thiessen to bring back a defeated motion on the floor for discussion. Article 5 1(a) changing the Convention from 2 years to 3 years. Motion accepted to bring back.

After considerable discussion the Motion was defeated by a unanimous vote.

Jim Harris spoke about the lack of members joining the Local Chapters of CP Pensioners and was suggesting ways to get more members to join. Try to contact them by e-mail, the Momentum magazine, Pensioners web page, or try to get the word out to all pensioners to join a chapter. CN gets \$1.00 from all pensioners deducted from all of their pension cheques. CP wants no part of this but it will be brought up at the next Pension meeting for discussion. If pensioners join they can be called members at large if they do not want to join a chapter.

Executive will discuss this later.

BIENNIAL CONVENTION 2013
